Zashin & Rich Co., L.P.A. has a responsibility to our clients as well as other individuals interested in knowing more about the law. Each year, many of our attorneys speak and present at seminars and conferences in an effort to broaden an understanding of various aspects of laws that affect corporations, individuals, couples and private organizations.

These presentations can be tailored to each group and are often accompanied by supporting materials. These materials allow the learning process to continue long after the presentation. The firm's presentations are developed with two goals:

1. Present information creating new avenues of thinking and new approaches to problem solving; and
2. Discuss issues which may have caused confusion or created doubt about laws, ordinances or specific court decisions.

Special relationships with practitioners in a wide range of professional services, ranging from financial consulting, health care, accounting and business development allow the firm's attorneys to tailor programs to individual/corporate needs.
